- **Blade templates**

  Designed blade templates with HTML/ CSS/JS for laravel projects

PROFILE

I am a skilled full stack developer with extensive experience in utilizing React and Next.js to create user-centric, high-performance web applications. I excel in collaborating with cross-functional teams to design, develop, and deploy robust solutions that prioritize both functionality and responsiveness, ensuring seamless user experiences and optimal performance across platforms.

WORK EXPERIENCE

Front-End developer

IT-Bridge Nepal   Apr 2023 - Present

- Developed and maintained web apps using react and Next js, enhancing user interface and improving application responsiveness.

- Designed and implemented full stack applications with Next js ,

- Collaborated with cross-functional teams to define, design, and ship new features, ensuring high performance and responsiveness of web applications.

- Integrated third-party services and APIs, improving the functionality and user experience of web application.

Front-End Intern

IT-Bridge Nepal   Jan 2023 - April 2023

- Assisted in development of various react projects.

- Gained hands-on experience with React and its frameworks, contributing to various project phases from concept to deployment.

- Collaborated closely with the design team to translate visual concepts into functional web interfaces.

- Supported seniors in integrating backend services, enhancing learning in API design and system architecture.

- Assisted senior developers with implementing interactive features in React, gaining valuable insights into component state management and user interface design.
